

Simple Touch® 15-Channel Remote Programming Instruction

Step 1. 15-Channel Remote Frequency Connection

- Use **Left** or **Right** button to select channel from 1 to 15.
- Press **motor receiver** with pin or paper clip for 2 seconds. Wait for motor to "jog".
- Click **P2** button (on back of remote) with pin or paper clip, and then wait for motor to "jog".
- Click **P2** again and wait for another "jog".
- Click **Up** button.
- RF connection completed.

Step 2. Setup Top Limit

- Press **Up** button to move shade to top limited location.
- Press **Up** and **My Favorite** buttons at the same time for 5 seconds.
- You will hear 3 short "B". 
- Top limit setup completed.

Step 3. Setup Bottom Limit

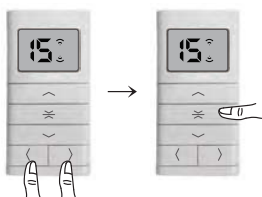

- Press **Down** button to move shade to bottom limited location.
- Press **Down** and **My Favorite** buttons at the same time for 5 seconds.
- You will hear 3 short "B". 
- Bottom limit setup completed.

Step 4. Setup My Favorite Position

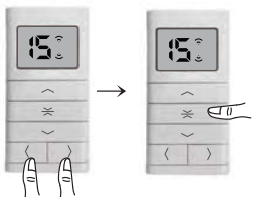

- Operate the shade to your favorite position.
- Press **My Favorite** button for 5 seconds. Wait for a short "B". 
- Then press **My Favorite** button again for 3 seconds. Wait for 3 short "B". 
- My Favorite position setup completed.

* Hide unused channels on remote

- Press and hold **Left** and **Right** buttons at the same time, and then "C" will show on the screen. Wait until "15" shown on the screen, then release buttons.
- Press **Left** or **Right** button to select how many channels you want to show on the screen. For example, if you only have 10 motorized shades connected to this remote, please select "10".
- Press and hold **My Favorite** button (a small "0" will appear first) until channel number shown on the screen again.
- Setting completed.

* Unhide channels on remote

- Press and hold **Left** and **Right** buttons at the same time, and then "C" will show on the screen. Wait until "15" shown on the screen, then release buttons.
- Press **My Favorite** button (a small "0" will appear on screen).
- Setting completed.

* Reset/ Re-programing

- Press **Up**, **My Favorite**, and **Down** buttons at the same time. Don't release until you hear a long "B". 
- Start programming from Step 1 to Step 4 above.

 - Click **P2** once on the new adding remote, and wait for shade to "jog".

- ❖ Disconnect a duplicated remote to the original existing remote:
 - Click **P2** once on the remote you want to continue use, and wait for shade to "jog". Click **P2** again and wait for another "jog".
 - Click **P2** button once on the remote you want to remove.

- ❖ Remove **All** connected remotes:
 - Click **P2** button once on one of remotes, and wait for shade to "jog".
 - Click **My Favorite** button, and then wait shade to "jog".
 - Click **P2** button on the same remote again, and then shade will jog.
 - All remotes will be disconnected.

Simple Touch® 15-Channel Remote Q&A

- Q: Can one shade be programed on multiple channels?
A: No, one shade can be only programed on one channel
- Q: Can multiple shades be programed on ONE channel?
A: Yes, only on channel “0”. Channel “0” is designed to control multiple shades that connect to this remote. The maximum controlled quantity is 15 shades.
- Q: Can this 15-channel remote connect to old Simple Touch motor?
A: Yes, programing needs to follow by old Simple Touch motor instruction, but no clock and alarm setting on 15-channel remote.
- Q: Can 1- & 5- channel remotes connect to new motor?
A: Yes, just followed by new motor programing instruction. Both clock and alarm work on old remote.
- Q: What is the distant limit for new 15-channel remote?
A: Up to 164 ft.
- Q: Can I control shades from other room?
A: Not recommend.
- Q: How do I reset size limit?
A: Erase frequency setting and then reprogram it.
- Q: How to hide unused channels?
A: Press **Left** and **Right** buttons for 5 seconds, select the channel# you need, and then press “**My Favorite**” button. Please see details on programing guide.
- Q: How to unhide unused channels?
A: Press **Left** and **Right** buttons for 5 seconds, and then press “**My Favorite**” button. Please see details on programing guide.
- Q: How long is the warranty of 15-channel remote and motor?
A: 1 year manufacture warranty
